报告题目:

Research On Computational Linguistics (计算语言学研究)

报告时间:　2009 年 9 月 23 日(周三)

　　　　　下午 4:00—5:00

报告地点:　科技综合楼三层 311

　　　　　计算数学所报告厅

Abstract:

Computational linguistics (CL) as a traditionary subject of Natrual Language Process, has become a hotspot recently, since more and more usable products related have entered the market like semantic software series and so on. This talk will introduce the CL research on two main directions , and particularly foucs on the statistical method and the corresponding products.
