

数学与系统科学研究院
计算数学所学术报告

报告人: Prof. Zhi-quan Luo
(University of Minnesota, USA)

报告题目:

SDP Relaxation for Nonconvex
Optimization I

邀请人: 戴或虹研究员

报告时间: 2008年7月5日(周六)

下午 15:00—17:00

报告地点: 科技综合楼三层 311

计算数学所报告厅

报告人简介:

Prof Luo got his PhD degree in MIT, and worked in McMaster University during 1989-2003. Now he is a professor in University of Minnesota, and ADC chair in Digital Technology. He is a fellow of IEEE, member of SIAM and MPS, and member of IEEE Signal Processing Society SPTM, SPCOM technical Committees. His research interest includes algorithmic/complexity issues arising from data communication, and signal processing. Current research focus is on: SDP relaxation for nonconvex quadratic optimization, dynamic spectrum management, distributed signal processing.
