报告题目:

**Factorization-based algorithms for
low-rank matrix completion and
Approximations**

邀请人: 刘歆 博士

报告时间: **2011 年 12 月 13 日 (周二)**

下午 15: 30-17: 30

报告地点: **科技综合楼三层 311**

计算数学所报告厅

Abstract:

Low-rank matrix completion and other approximations have wide applications in data analysis and processing. We will report some of our recent algorithmic works on solving factorization-based models, motivated by developing practically efficient algorithms.
