计算数学所学术报告

报告人: **Prof. JingPing Wang**

( *University of Kent, UK* )

报告题目:

**Symbolic representation and its applications**

邀请人: 胡星标 研究员

报告时间: **2015 年 8 月 17 日 (周一)**

**上午 10:00~11:00**

报告地点: 数学院南楼七层

**702 会议室**

**Abstract:**

**Symbolic representation of differential ring enables us to reduce the problems in differential algebra to the ones in number theory and algebraic geometry. The approach can be applied to classification of integrable equations. In this talk, I'll review some recent results and applications.**
